Everyone can help!

One Sunday morning, a children's minister was telling the kids about Love INC and how they might become involved. Adam decided for his 9th birthday party that he wanted his friends to bring supplies to make breakfast bags. They did and then assembled the kits at his party. Besides the kits donated to Love INC, the children attending the party also took one or two kits home with them to give away to someone in need.

Consider making this a monthly contribution!
